

# SAINT FRANCIS OF ASSISI COLLEGE

SAINT ANTHONY SCHOOL – LOS BAÑOS

---

## **PRESIDENTIAL MESSAGE FOR BATCH 2019**

**(Basic Education)**

*“Educating with Respect, Cultivating an Atmosphere of Understanding.”*

“Technology has always been at the forefront of human education. From the days of carving figures on rock walls to today, when most students are equipped with several portable technological devices at any given time, technology continues to push educational capabilities to new levels. In looking at where educational methods and tools have come from to where they are going in the future, technology's importance in the classroom is evident now more than ever.”

With the evolution of technology, educational capabilities are growing and changing every day. With these advances come new responsibilities but value formation is almost non-existent.

Saint Francis of Assisi College does along with technological advancement and promotes an atmosphere of respect and understanding among its people. The value of respect in school cannot be undersold. It is a powerful agent of change that leads to “respectful learning Environment,” and develops an “atmosphere of understanding”. Thus, this institution bears along with its patron Saint, the virtues of respect and understanding. The school where a homey atmosphere is important, and Franciscan virtues are its pillars.

Franciscans, the road may be tougher ahead. Continue to strive for excellence but always remember to keep your feet on the ground. An education coupled with respect and understanding makes a big difference!!!

Congratulations Batch 2019!

**ARTURO O. OROSCO, Jr., Ph. D.**

President

**Academics. *And beyond.***
